They survive underground on a post-apocalyptic earth overrun by gangs and clones, and hunted overhead by mysterious hoverships. When her brother goes missing, Derry's only hope of finding him is to strike a deal with a group of cutthroat subversives. Desperate to save her only sibling, she leads a daring raid to uncover the secrets behind the Sweepers' hoverships, but she soon finds out the world she knows is a lie. Keeping her brother alive may require trusting her enemy and opening her heart to someone scarcely human.
