How important is it for you to maintain a good attitude in every situation? Well, how much do you want to win in life, as a person of excellence? According to author Robb Thompson, attitude is everything in the arena of excellence – it's the historian of our past, the secretary of our present, and the prophet of our future. In his book, *Excellence in Attitude*, Dr. Thompson explains that in order to be a person of excellence, you must believe that today is the lowest point of the rest of your life. If your heart says yes to that statement, you'll definitely want to read the scriptural principles that Dr. Thompson goes on to share. These principles will help you identify and eliminate every poor attitude that hindered you in the past. Meanwhile, you'll learn how to cultivate an attitude of excellence that will carry you victoriously through every challenge that arises. So if you don't like where your life is right now, remember – tomorrow is a brand new day. And the kind of attitude you choose in the days to come will be the key to getting where you want to go!
