More than 100 clever tricks you can perform anytime, anywhere. Amaze your friends with incredible feats of dexterity and manipulation using just your hands, feet, and a few basic household items. “Remove,” “stretch,” and “shrink” your fingers. Defy the laws of anatomy and turn your hand completely around. Make a spoon stick to the palm of your hand, and turn a pencil to rubber. Fool your friends with silly I.Q. tests worked with fingers, and entertain them with funny bits like the “trained flea.” Try stunts, impressions, and challenges that you can do but spectators can’t. Each trick includes a script of what to say during every step of your performance, ensuring that you’ll get a “big hand” from your audience.
