Blonde and Owner is the sequel to the Dom and Domme Tall, blonde Susan has had it with short men, or men who think that because she's six feet tall she should be in charge of everything. So when her short date takes her to Excess, a BDSM club, without telling her where they're going, and then wants her to dominate him, she's thoroughly pissed off. But the club intrigues her. Then she meets the club's former owner. Tall and handsome, he has no intention of letting her be in charge, or even letting her mouth off without a spanking. That's fine for an evening, but can they make it last for longer? A little kinky fun is one thing, but Vincent wants more, and she needs to find out just what he means when he says he wants to be her owner. Publisher's Note: This book contains explicit sexual situations, graphic language, and material that some readers may find objectionable: anal play/intercourse, BDSM theme and elements.
