Cole Evans has been in love with Gianna Thomas from the first moment he laid eyes on her when he was a student at the University. He pursued her relentlessly, but Gianna would not date him because of their ten-year age difference. She broke his heart when she pushed him away for good, afraid to be known as a Cougar. Five years later, Cole is now twenty-nine years old and is ready to fight for Gianna. Before he does, he takes one more trip through the portal he created into the alternate universe he has stumbled across.

He has been chosen as a guard for the ruling queen of this world and is shocked when he sees that one of the prisoners is Gianna.

He needs to get her out of this place, away from the hungry gaze of the queen and into his arms once and for all.
