Crestbeach - Belle's Beginning, the first book from the Crestbeach Novellas series, is a young adult, family life drama with a hint of romance, focused around the life of Kaitlin Belle. Kaitlin Belle was like any other sixteen year old; she enjoyed hanging around with her friends and having fun. That was until her mum decided she didn't like the so-called friends Kaitlin was hanging around with and decided that they were moving away – to the seaside. And to top it all, she was forcing her to get a job and Kaitlin hated her for it! How would Kaitlin survive, being taken away from everything and everyone she loved? And would their relationship ever get back to what it once was? And who will she meet along the way?
