This Is A Tempting And Inspirational Romance With A Happily Ever After Ending. Larkin happily finds out that she is pregnant to her husband Gregory. However, after some complications, she finds herself bedridden and pushed aside by her soon to be new sister wife, Melody. Because of her delicate condition, she must journey every four weeks into 'the town' for professional doctor's appointments. It is there that she meets Maryann, who actually escaped from the same compound that Larkin lives in. With each visit, the two become closer, and Larkin soon confides in Maryann about the bullying ways of Melody, and how she is beginning to worry about her and her baby's safety. Further into her pregnancy, Larkin wakes up one night to find Melody staring down at her hatefully. It is then that Larkin realizes that for her and her baby's sake, she must ask Maryann to help her escape before Melody causes her further harm. Can she escape the grasp of her current ways before something terrible happens? **WARNING:** Some bonuses contain mature themes and language and are intended for 18+ readers only.
