Billionaire Lyndon Surway takes off in his private plane and never returns. His will leaves the entirety of his wealth—one of the largest fortunes in history—to his “dear friend Lucian Baker.” Only there is no trace of anyone by that name. And the fortune itself is nowhere to be found. Andrew Day knows nothing of wealth and privilege, but he won a scholarship to study at the most exclusive school in the country, in the town where the mystery, decades later, remains unsolved.

There he discovers friendship and danger with the aristocratic Cameron and the beautiful Olivia. But watchful eyes follow him everywhere...

Until, one night, he comes across a secret that will change his life. As he begins to unravel what really happened to the Surway fortune, the question remains: who is Lucian Baker?
