Legal Briefs Sahara Kelly Book 1 in the Sexplorations series. After two long years, I'm finally free Divorces can be challenging un there's a good lawyer at your side-and I had the best. Michael Shannon's been there every step of the way. Exactly when he appeared in my erotic dreams as well, I don't know, but he's starring in them now, definitely minus his legal briefs. Does he think about me that way? I hope so. There's something in his eyes... My best friend Dee says I should go for it, and him.

So maybe I will. If I'm going to rediscover my sensuality and have myself a "Sexploration," Michael's the only guy I can imagine in my bed. And if he's anything like my dreams, I just might keep him there.
