A Divine Grace has been kidnapped... Words that send terror rushing through the heart of another Divine Grace, Avery McClain. Now she's rising up, taking her place as a warrior, and standing beside the Elite Thracians, protectors of the Olympians. Banding together, they have a sole mission—to find the woman who is destined to be a Queen. The massacre at the Ralpha Clinic and a deadline from the gods force them to use every asset in their arsenal—including one who literally fell at their feet. Keona Nadal must find her twin. Piper is in the hands of the enemy and they show no mercy. This leaves Keona in a position where she must trust the very people whom she has feared her entire life. Her rare and coveted gift as a teleporter will be tested and her loyalty shaken, both leaving her to ask what is more important: serving the greater good or saving her sister? Can they rescue Piper before she disappears forever? Start your journey with Divine Awakening!
