Recollections of my fraternity of brains and misfits. I was a poor boy from the MidWest who pledged a fraternity at UC Berkeley not knowing what I was getting into. My big fear was that I would graduate never having slept with a woman. To my surprise, I received a phone call from a Jewish fraternity asking me to come by. I soon went from geek to Greek. This is a graphic novel of my comic experience while pledging, the secrets of Hell Week, pranks and tales of fraternity life, and my discovery of love and sex.
