What would you do for love? Would you sit by and let it pass you by, or would you grab onto it no matter the cost? Would you break the rules and leave everyone else behind so guarantee your own happiness? Sy Cole wants what all sixteen-year-old girls in her coven want. To master one of the four elements, move out of her parents' home, and into her new one with her chosen husband. It seemed all that was within her grasp, when it was brutally snatched away. Instead of sitting by and letting her life be dictated, she acted. When faced with having to choose family over love, she chose love. She took control of her life and went on a journey that would turn all she knew and was always told upside down. On the run and looking over her shoulder Sy, along with her love Jamie, look for the only people she believes can help them now...her brothers. Join Sy as she undergoes the ceremony that changes her life forever. Whether it's for good or bad is still to be determined.
