Twenty-four year old librarian, Mae James, just got dumped by her longtime boyfriend. His reasoning? She's too 'vanilla'...in bed and in life. Mae's desire to take a risk leads her into the arms of an alluring stranger named Simon. She's swept up in Simon's dark eyes, his beyond-this-world body, his bad-boy tattoos, and mysterious ways. He stirs a desire deep within her she didn't know existed - everything her minister father warned her to avoid.

Mae's all grown up now, ready to take some risks, and Simon is the perfect mistake. But some mistakes can be deadly. Mae will soon find out Simon is heir to Dark Fay, soon to be alpha of his predator fairy species. His deadliest secret? He's a shapeshifter and the dragon he shares his body with can be...unpredictable. This super sexy short story is the first in a new romance series featuring Mae and her brooding, alpha lover Simon.
