[The Ten Commandments: The Reciprocity of Faithfulness.epub](#)

Offering a host of classic and new essays surveying the scholarly ethical and biblical debate surrounding the Ten Commandments, William Brown organizes his volume into three parts: the history of interpretation, contemporary reflections on the Decalogue as a whole, and contemporary reflections on individual commandments. A useful addition to ethics as well as Old Testament and Hebrew Bible courses, Brown's *The Ten Commandments* will be a standard reference for all Decalogue research, as it facilitates a helpful balance between moral, theological, and biblical study. The *Library of Theological Ethics* series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors though reflection on classic works in the field.
