What are the top 1000 albums of all time? With votes from writers, performers, fans and the general public, this reference guide provides the answer. There is an entry for each of the 1000 albums, including a run-down on the music, full track listing, chart positions where relevant, and recommendations for further listening. There are also lists by genre, including jazz, blues, heavy metal and reggae, and lists by key artists such as Neil Young and Bruce Springsteen. The albums are arranged from one to 1000 according to popularity.
